The Coalition of Homeschoolers across Lancaster County (CHALC) is an umbrella organization serving homeschool groups, with a combined count of over 600 families. CHALC publishes this online newsletter in which member homeschool groups advertise their activities, such as field trips, meetings, and learning cooperatives. CHALC also provides liability insurance for publicized activities, a web site for each group, leadership breakfasts and other events, as well as a variety of discounts.

Over the years, CHALC has strived to pass along accurate information of interest to the homeschool community, including educational developments, legislative bills, and local resources. CHALC endeavors to encourage homeschool families by sponsoring the annual CHALC graduation, publishing homeschool family experiences, and recognizing student achievement in The Scrawls.

The various positions on the CHALC Board are filled by fellow volunteer homeschool parents. If you would like to learn more about the Board and its activities, please contact us at mail@chalc.org.

FOR THE LOVE OF WORDS

A Book Writing Competition

Lynn Shumaker

Lynn's book was a beautiful example of what happens when you leave stuffed animals alone! The main character, Sophia, finds herself in a mess due to her stuffed animals. Who will ever believe her when she says, "My stuffed animals did it!?" In a story of deals and promises, Lynn did a great job writing her story!

Eli Coulson

Eli's book took us on a journey with a band named Herman's Hermits. It is a welcoming quest to pick up band members. The encouraging band members make everyone feel welcomed and would love it if you would join them! Way to go, Eli!!

Lila Grubb

In Lila's book, her main character Sarah cannot believe what has happened and now refuses to play with an old friend. How is this possible, we ask? What will it take to restore the friendship? Love your story Lila, good job!!

Applauding Success!

I want to congratulate the young scholars that entered this year's competition. To write and publish a book takes a lot of work and planning. As I read through their books, I found many common threads. The value of friendships, the power of imagination, and respect for parents was found in many of the books. To read a paragraph in which one character was witnessing to another was powerful and priceless!

Some of the books dealt with strong emotions and explored the bonds that hold us together. Can friends disagree and still fight for one another? Can we follow the prompting of the Holy Spirit and overcome the circumstances we find ourselves in? Incredible writing was a hallmark of this year's entries.

CHALC
Writing Contest

Kaylisa Montijo

Kaylisa's book revealed a secret in an escape room. In a story of self acceptance, we learn that teamwork and friendship can win the day. We feel the pain as the main character is pushed against the lockers and the jock sneers, "It's the cripple." Wonderful job Kaylisa!!

Jocelyn Coulson

Jocelyn's book was a gem! In a fantastic world, friendships are tested and alliances are made. Can the enemy be defeated when its powers are so great? When friends work together and include God, we clearly see what can happen. Super writing Jocelyn!!

Griffin Shumaker

Griffin's book takes us through the adventures of Phillip and his friend Carl. Why is Carl in trouble? Can inspiration come from danger? In a story filled with great relationships, we are shocked to find out who started the fire. "Fowl play", we cry out! Great work, Griffin!

Elizabeth Montijo

Elizabeth's book was heart-warming. What's next for Alexander Romeo Augustus after being separated from his loved one? A beautiful story of growing up and eventually reuniting with the one you love! Way to go Elizabeth!!

I remember the time our son wrote a book and entered it into a competition at the community library. It was long and well articulated. Yet, I knew in my heart that he would not place in the competition. It was very improbable they would believe that a child his age could write such a story. Surely enough, no prize came.

Here at CHALC, we welcome writers at all levels, hoping they produce excellent writings. Use your God-given skills and creativity to engage others! As I read over their books, I could notice the writer's worldview and how that impacted the characters' reactions to the situations they found themselves in. I made notes on the way the characters interacted with their parents, family, and friends.

In a world where sin and problems are prevalent, we need writers that have the courage to correctly address situations with a pure heart and graceful words.

May the Lord continue to shine on you and bless your creativity and writing.

Dr. Montijo, CHALC President

The Kool-Aid of Cosmos
Part 2 - Cosmos of the Solar System

Our new series examines the claims of the TV series "Cosmos," which appeared in 2014 and again in 2020. This was a reboot of the famous series in the 1980's by Dr. Carl Sagan and now hosted by Dr. Neil deGrasse Tyson. Last month we did an overview of objects in the universe like stars, galaxies, black holes and many others. Check out this presentation at www.isbrministries.org/videos2021.html
Tonight we look at the solar system and what Cosmos claims about its origin. Spoiler Alert: God's explanation is much better!

The Kool-Aid of Cosmos
Part 3 - Cosmos of the Universe

Part 3 of our series focuses on the universe as a whole and what Cosmos says about its origin and operation. We give a brief introduction to Part 4, entitled "A Creationist Response to the Big Bang." We also look at ideas that shaped beliefs today and how Cosmos distorts them into a battle of science vs. religion

Please join us and bring a friend!

Lititz Home Educators

www.homeschool-life.com/pa/lhe

Lititz Home Educators is a unique alternative to a weekly co-op. It allows you to be connected to other homeschoolers without a weekly time commitment. Members serve the group in some way during the year and can pick and choose opportunities that interest their family and suit their schedule. Many members use it in addition to a weekly co-op as it provides enrichment opportunities and a safe, closed e-mail forum for communicating with other like-minded homeschoolers. You can ask questions, borrow and buy new curriculum, seek recommendations, find out pertinent information and opportunities for homeschoolers, and more! LHE is the perfect addition to your home school and a great way to be connected. Come build relationships with us as we serve each other. For detailed information about becoming a member, please contact lititzhomeeducators@gmail.com or visit www.homeschool-life.com/pa/lhe.

UPCOMING LHE MEMBER ACTIVITIES

(MORE DETAILS AND SIGN-UPS ON THE LHE CALENDAR.)

ANNUAL LHE PARENT MEETING

Our annual LHE Parent Meeting is scheduled for **Tuesday, May 11th from 6:30pm - 8pm**. We will be recapping the past year, introducing new ideas, addressing any concerns and answering all of your questions.

This is a beautiful opportunity to gather among our LHE parents, to reconnect with friends, and to meet new families. And, if you have a friend that may be interested in LHE for the coming year bring them, too! The annual meeting is for parents only (nursing infants always welcome). For more details and to sign up, please see the LHE calendar.

POND & FARMETTE FUN

Wednesday, May 12, drop in 10-2.

(Will change the date if it's raining)

Join my boys and I to look for tadpoles, crayfish, minnows, + pond critters galore! We welcome you to our home, to explore our creek and pond. For those more interested in warm-blooded critters we also have a variety of small barn animals for you to learn about and snuggle. Bring a picnic lunch or snacks if you so desire! See LHE calendar for details.

AFTERNOON AT TREE HOUSE PLAYGROUND

A new playground the "Tree House" just opened in Lititz and it has plenty of great things to play on for young and older kids. Join us to enjoy this fun new spot on Friday, May 7th from 12:30-2:00. It is located at 300 West Orange Street Lititz, PA 17543. Contact Jessica at jbodene@gmail.com with any questions.

SPRING SPORTS TIME

Join us for a casual gathering every other Monday and every other Wednesday afternoon at 3pm on alternating weeks. This is a student-initiated time for them to play random outdoor sports together: basketball, street hockey (in an enclosed arena), kickball, etc. Use the LHE calendar to sign up and to view the meeting location.

Wednesday Dates: April 7, 21; May 5, 19

Monday Dates: April 12, 26; May 10, 24

A BOOK LOVER'S AFTERNOON

Do you like to read? My name is Han and I am 12 yrs. old. One of my favorite activities is reading. We will be discussing *A Little Princess*, by Frances Hodgson Burnett, and doing some fun activities related to the book. Young ladies ages 7 and up are invited to join us on **Wednesday, June 23, from 1:30 - 3:30** at our home in New Holland. Masks are not required.

Cornerstone Upper Tier is committed to providing a regular rotation of core academic classes that are necessary for graduation, as well as a variety of elective classes to help you meet your educational goals.

Many colleges require incoming students to have two years of foreign language on their transcript.

We offer several levels of French, German and Spanish. Each language also offers an introductory class that is a great way for middle school and younger high school students to explore their options.

Co-op Track	Upper Level Only Track
Classes/care are available for infants through 12th grade students.	UL only track is open to 7th through 12th grade students only.
A parent-member is required to teach/co-teach three classes and assume one extracurricular duty or the equivalent. Parents with students in upper level ULA classes must also serve a scheduled time slot(s)**.	Parents who agree to serve as monitors pay a lower class registration fee. (For each registered class per semester, monitors can expect to serve two time slots which range from 1 to 1.5 hour each.)
Admittance is through application which is reviewed and accepted by the steering committee based on references as well as class space available. Co-op track members must affirm a statement of faith. We currently have a waitlist for co-op track membership for families with elementary-aged children.	There is no admission process. Families may register for classes online. UL only track students and families do not need to affirm a statement of faith, but they agree to respect and abide by the policies which are guided by it. They should also understand that Learning Station classes are taught from a Christian worldview.
Registration for upper level courses opens to co-op track students first.	UL only track students may register for open classes after co-op track students. Returning UL only students register before new UL only students.
Pays an annual registration fee of \$95 to \$125 based on the number of students enrolled plus a \$25 fee made payable to <u>CHALC</u> . (**Co-op track families who do not wish to fulfill their upper level monitoring duties will pay a \$20 fee for each ULA class per semester.)	Each family must pay a \$30 fee per ULA/ULB class per semester as well as a \$25 CHALC member fee. Members who agree to serve as monitors pay only \$10 per ULA/ULB class per semester as well as a \$25 CHALC registration fee.
Each upper-level-aged student may register for ULB courses free of charge.	Each student must pay \$60-80 per 1 semester ULB* course.
Co-op track students may participate in the Theater Arts program.	The Theater Arts program is not open to upper level students.
Member families receive free tickets to the Theater Arts class production.	The public is invited to purchase tickets to Learning Station's Theater Arts class production.
Families enjoy a number of extracurricular perks like theater arts, track and field day, closing program and field trips.	Students are encouraged to attend the teen opening from 8:45 to 9:00 every Wednesday morning and to get to know their peers in the social study hall between classes.
<p>Families in both tracks must pay the class fee for all ULA classes which are taught by independent contract teachers</p> <p>*7th through 12th grade courses are divided into two categories. ULA courses typically run 15 weeks and are taught by independent contractors. ULB courses may run 10 -15 weeks and are taught by co-op track parents.</p>

7th & 8th Grade Earth Science

Teacher: Betsy Osman

Earth science will be taught from a Biblical, creationist perspective, emphasizing God's handiwork in the world around us. Using *God's Design Curriculum* from Answers in Genesis, the goal is to strengthen your student's faith by showing how science consistently supports the Bible's written record. Students learn to think critically and logically examine arguments presented by all sides in the d/evolution debate.

Also, we will look at articles that examine the lives of scientists throughout history who have contributed to the subject. Topics covered will be rocks, volcanoes, earthquakes, glaciers, how the Great Flood changed the surface of the earth, why fossils support what the Bible says, the study of nebula, start, comets, meteors, the planets, the space program, weather, and God's hand in the design of our oceans and the effect on the weather.

There will be weekly assignments with questions, projects, and a paper. Tests and quizzes will be given. There is a possibility of a field trip during the school year to help the student better understand the material being studied. At the pace of 3 lessons a week (approximately 30-45 minutes for each), we will cover a three-book series.

Many of our activities occur in the northern and eastern areas of Lancaster County, but LHE welcomes families from anywhere.
