

YORK COUNTY PARKS

HOMESCHOOL DAY SPRING 2015

March 2nd & 3rd, 9:30-2 pm,
Nixon Park Nature Center

Join county and state park naturalists for this special home school student event for students ages 6 through 11, studying 1st through 6th grade curriculums. Students will rotate through three different activities with other students of similar age.

This season's theme is Maple Sugaring. We'll take a walk through the Red Maple grove, explore the history of making maple syrup, and participate in a Maple Sugar themed scavenger hunt.

This is a student drop-off program. Limited spaces available for parent chaperones; please inquire during registration.

To register call Nixon County Park at 717-428-1961. Each student and chaperone also needs to provide a completed emergency medical form available on our website, at the nature center, or via email.

Please note: Activities and information are exactly the same as those offered during the Maple Sugaring Weekend. Students should not attend both events.
