Physical Education					
Electives <i>May include academic electives</i>					

- Refer to page 40 for general graduation guidelines. Consider student's interests when planning.
- Refer to page 43 for specific Bright Futures requirements.
- **General Guideline:** Six credits per year, working four to six hours a day. Many home educated students earn more than six credits per year, especially if they earn credits over the summer. More credits per semester may be needed to meet the requirements for admission to highly-selective, competitive universities.
